CAREER OBJECTIVE

To obtain a challenging Full Stack Developer position in a dynamic organization where I can utilize my skills and knowledge in designing, developing and maintaining scalable and user-friendly web and mobile applications. With a focus on continuous learning and growth, I aim to contribute to the success of the organization and enhance my technical expertise in the field of software development. I aspire to work on innovative projects and collaborate with cross-functional teams to deliver high-quality solutions that meet the needs and expectations of clients and end-users.

SKILLS

Programming Language: C, C++, Go, JavaScript, Dart, Python, Rust
Front End: Flutter, React.js, Next.Js , Html, CSS, JavaScript, shadcn/ui, Headless UI, Tailwind CSS
Back End: Gin, Nodejs, Express.Js , Gorm, Mongoose, API, GraphQL
Database: Mongodb, MySQL, PostgreSQL

EXPERIENCE

Senior Full Stack Engineer

Appstick   **June 2021 - Present, Khulna, Bangladesh**

- Create secure web apps using Go and Node.js.
- Create cross platform mobile applications using Flutter.
- Building and managing RESTful/GraphQL APIs using Express.js and Go.
- Integrating front-end applications with back-end services.
- Testing and debugging applications to ensure their quality and performance.
- Keeping up to date with emerging technologies and industry trends.
- Optimizing applications for maximum speed, scalability, and security.
- Ensuring the application architecture is scalable and reliable.
- Troubleshooting issues with applications and providing solutions.
- Writing clean, maintainable, and well-documented code.

React Developer

AndIT   **October 2020 - May 2021, Khulna**

- Designing and developing user-friendly web interfaces using React.js.
- Building reusable components and libraries for future use.
- Collaborating with designers, product managers, and other developers to ensure the web application meets the project requirements and goals.
- Implementing responsive web design principles to ensure that the application is optimized for all devices and screen sizes.

- Writing clean, efficient, and maintainable code that adheres to industry standards.
- Testing and debugging code to ensure high-quality software.
- Continuously researching and learning new technologies and approaches to stay up to date with the latest industry trends.
- Working with back-end developers to integrate front-end components with back-end services and APIs.
- Deploying applications to production environments.
- Providing support and maintenance for the application post-deployment.

Web Developer (Internship)

Puredevs   **Jan 2020 - October 2020, Dhaka, Bangladesh**
- Analyzing user needs and requirements to determine the functionality and features required for a custom WordPress plugin.
- Designing and developing custom WordPress plugins using PHP, JavaScript, and WordPress APIs.
- Testing and debugging WordPress plugins to ensure their quality and performance.
- Collaborating with cross-functional teams to identify and prioritize features and functionality for WordPress plugins.
- Integrating WordPress plugins with other third-party systems or services.
